# ESUBALEW WORKU

## FULL-STACK JAVASCRIPT / TYPESCRIPT DEVELOPER

Bahir Dar, Ethiopia | +251 933 839 525 | esuwo2024@gmail.com
GitHub: github.com/esubaleww | LinkedIn: linkedin.com/in/esuk

## PROFESSIONAL SUMMARY

Software Engineering student at Bahir Dar University with hands-on full-stack development experience using JavaScript, TypeScript, React, Next.js, Node.js, Express, and MongoDB. Collaborated on an IT Service Management and Information Portal System for the ANRS Bureau during a four-month academic internship. Builds web applications featuring REST APIs, authentication, admin workflows, third-party integrations, and responsive interfaces.

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, Java, C++, HTML5, CSS3
**Frontend:** React, Next.js, Tailwind CSS, responsive UI development
**Backend:** Node.js, Express.js, REST APIs, JWT authentication
**Data & integrations:** MongoDB, MySQL fundamentals, Stripe, Cloudinary
**Tools:** Git, GitHub, Postman, Vercel, Render, debugging, API testing

## EXPERIENCE

**Full-Stack Developer — Academic Internship** | ANRS Bureau / ITB | *4-month academic internship*

- Collaborated with a team to develop the Innovation and Technology Service Management and Information Portal System (ITSMS) for the bureau.
- Contributed to a full-stack system with separate client and server applications for public information, program applications, service requests, and staff workflows.
- Worked with the team on application functionality, API/data flows, and role-oriented administrative features.

**Full-Stack Development Intern** | Codveda Overseas Solutions | *Nov 2025 – Dec 2025*

- Developed full-stack application features using MongoDB, Express.js, React, and Node.js.
- Built REST API endpoints supporting CRUD operations and JWT-based authentication, and connected responsive React interfaces to backend services.

**Front-End Development Intern** | SaiKet Systems | *Nov 2025 – Dec 2025*

- Completed practical frontend tasks and mini-projects using HTML, CSS, and JavaScript.

## SELECTED PROJECTS

**ITSMS — ANRS Bureau** | *JavaScript, client/server web application*

- Team-developed service-management and information portal completed during academic internship. Repository: github.com/esubaleww/itsms-project

**Orthodox Resource Center** | *React, JavaScript, Node.js, Express, MongoDB, Tailwind CSS*

- Full-stack bilingual English/Amharic resource platform with categorized resources, events/RSVPs, admin content management, user messaging, and JWT-based role access. Repository: github.com/esubaleww/church_resources_library

**MERN ChatApp** | *MongoDB, Express, React, Node.js, Socket.IO*

- Real-time chat application with separate frontend/backend codebases and a deployed frontend. Repository: github.com/esubaleww/CHATAPP

## EDUCATION

**Bachelor of Engineering in Software Engineering** | Bahir Dar University | Expected graduation: 2027

## CERTIFICATIONS

- Backend Development and APIs — freeCodeCamp
- Front End Development Libraries — freeCodeCamp
- JavaScript Algorithms and Data Structures — freeCodeCamp
- Responsive Web Design — freeCodeCamp

**Languages:** Amharic, English
